I am going to ask you a lot of questions about you, your family, and things you like to do. There are no right or wrong answers; we are only interested in learning more about fourth-grade boys and their families. We are talking to a lot of different boys your age, and what we find out from all of you will really help us understand families better.

Your answers are private and no one else, not even your parents, will know what your answers are.

If you don't understand any question, or just don't feel comfortable about answering something, just let me know.
